### Production flexibility, innovation and commitment.

We are constantly researching and developing new designs to adapt to all bathroom styles and offer excellent value for money.

We provide flexibility and agile solutions to our customers, thanks to our product development team, automated production lines and process controls.

We guarantee the maximum quality and durability of our products through processes controlled by internal and external audits.

### Environmentally Positive Manufacturing.

*Sustainability and concern for the environment are as important as the quality of our products.*

### The same quality with a plus of hygiene.

*We use antibacterial paint for our lacquered furniture, made with silver ions, which has no harmful effect on health and is effective throughout the unit's whole life.*

### Ecological reflection.

*Our mirrors are Miralite Pure, an environmentally friendly material with lead-free, water-based, and solvent-free paint, which is more opaque and environmentally friendly and also improves indoor air quality and contributes to the preservation of nature.*

### Conscientious about the future.

*We are committed to recycling at every stage of the supply chain, ensuring the optimal use of resources and through protocols for the recycling of wood and paints. In addition, our packaging is made from recycled cardboard and, instead of plastic, we use non-woven fabric. A reusable and 100% recyclable material.*

### Our energy.

*We have 1,280 solar panels to avoid the emission of more than 6,000 tonnes of CO2. This reduction in emissions corresponds to planting more than 12,000 trees or the equivalent of 30 football stadiums.*

## VISOBATH ES CONSCIENTE, SOSTENIBLE Y ECO-FRIENDLY

*VISOBATH IS CONSCIOUS,

### Fabricación positiva con el Medio Ambiente.

La sostenibilidad y la preocupación por el medio ambiente son tan importantes como la calidad de nuestros productos.

### Misma calidad con un plus de higiene.

Utilizamos para nuestros muebles lacados pintura antibacterias, elaborada con iones de plata, sin ningún efecto perjudicial para la salud y efectiva durante toda la vida del mueble.

### Reflejo ecológico.

Nuestros espejos son Miralite Pure, un material ecológico con pintura a base de agua, libre de plomo y disolvente, más opaco y ecológico, que además, mejora la calidad del aire interior y contribuye a preservar la naturaleza.

### Concienciados por el futuro.

Estamos comprometidos con el reciclaje en cada etapa de la cadena de suministro, asegurando el uso óptimo de recursos y mediante protocolos para el reciclado de madera y pinturas. Además, nuestros embalajes están compuestos por cartón reciclado y en lugar de plástico, utilizamos tejido sin tejer. Material reutilizable y 100% reciclable.

### Nuestra energía.

Disponemos de 1.280 paneles solares para evitar la emisión de más de 6.000 toneladas de CO2 al cielo. Esta reducción de emisiones se corresponde con una plantación de más de 12.000 árboles o el equivalente a 30 estadios de fútbol.
